Project Design Phase-I
Problem – Solution Fit Template

Date	11th February 2026
Team ID	LTVIP2026TMIDS74310
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites using Tableau.
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

Template:

Customer–Problem–Solution Canvas

1. CUSTOMER SEGMENT(S) — CS

Primary Customers:
- Researchers in cultural studies, geography, data analytics.

Secondary Customers:
- Heritage conservation professionals, policymakers, educators, students, NGOs, data journalism platforms, educational institutions.

Tertiary Users:
- Data journalism platforms and educational institutions.

2. JOBS-TO-BE-DONE / PROBLEMS — J&P

- Analyze distribution of UNESCO World Heritage Sites by country and region.
- Identify trends in site inscriptions over time.
- Detect sites categorized as "In Danger".
- Compare regional heritage growth patterns.
- Extract insights from complex raw datasets efficiently.

3. TRIGGERS — TR

- Academic research requiring heritage data analysis.
- Policy planning for cultural presevation.
- Reports on endangered heritage sites.
- Educational assignments or thesis projects.
- Growing global interest in cultural sustainability.

4. EMOTIONS: BEFORE / AFTER — EM

- **BEFORE:** Overwhelmed, confused, frustrated by raw spreadsheets and scattered data.
- **AFTER:** Confident, informed, empowered to make data-driven decisions.

6. CUSTOMER CONSTRAINTS — CC

- Limited time for manual data anlylty eccarch.
- Lack of advanced technical data skills.
- Budget restrictions for advanced analytic daia tools.
- Difficulty accessing structured, ready-to-use.
- Dificulty accessing structured, ready-to-use use insights.

9. PROBLEM ROOT CAUSE — RC

- The gap between data availability and data accessibility.
- While UNESCO provides comprehensive heritage data, it lacks interactive visualization tools that transform raw information into actionable insights.

LIMITATIONS: Non-interactive, time-consuming, not visually intuitive, limited comparative capability.

9. PROBLEM ROOT CAUSE — RC

The gap between data availability anddata accessibility.

While UNESCO provides comprehensive heritage data, it lacks interactive visualization tools that transform raw information into actionable insights.

10. YOUR SOLUTION — SL

An interactive Tabllau-based analytical dashboard that transforms UNESCO World Heritage data into intuitive **visualizations.**

- Provides country-wise distribution analysis, endangered site monitoring, and regional inscription trend tracking through dynamic filtering and real-time eploration.
- Enables efficient, data-driven heritage conservation decisions.

5. AVAILABLE SOLUTIONS — AS

- Raw UNESCO datasets (CSV/Excel format).
- Static reports and PDF publications.
- Basic spreadsheets with manual filtering.
- Academic papers with limited visualization.

LIMITATIONS: Non-interactive, time-consuming, Not visually intuitive, limited comparative capability.

6. CUSTOMER CONSTRAINTS — CC

- Limited time for manual data analysis.
- Lack of advanced technical data skills.
- Budget restrictions for advanced analytic tools.
- Difficulty accessing structured, ready-to-use insights.

7. BEHAVIOUR — BE

- Download raw data and manually clean it.
- Use Excel for filtering and pivot tables.
- Refer to published reports instead of deep analysis.
- Spend significant time interpreting trends manually.

8. CHANNELS of BEHAVIOUR — CH

8.1 ONLINE
- UNESCO official website
- Research databases
- Academic journals
- Data repositores
- Educational portals

8.2 OFFLINE
- Academic conferences
- Government policy meetings
- University classrooms
- Heritage conservation workshops
